WWW.BERETTA.COM

At the core of Beretta is a passion.

An understanding of the wild places. The cold fields of autumn.

The high grass and the low marsh. Rain and sun. Man and dog.

It's an understanding that is pure and real.

It lives in the deepest reaches of the hunter's heart.

The innermost corners of the shooter's soul.

And it is everywhere.

A field in Tuscany. A lake in Wyoming. The flash of a tail. The thunder of wings.

And then there is the stirring. The relentless search for balance.

Between what has gone before and what is yet to be.

Between then and now and tomorrow.

This is the passion that drives Beretta. It's in our genes.

And so, too, is it in our hearts. It's why we exist.

And it's why we have endured for nearly 500 years.

Because of one purpose. One passion.

Dear Friends,

It is with great pleasure that I welcome you to our newest edition of the Beretta Annual.

This book not only showcases the breadth and scope of Beretta products, but stands as a testament to the concepts that have made our brand what it is today. Beretta was built on a foundation of reliability, craftsmanship, and a drive for innovation. From those principles we have never wavered.

But our company has also been shaped by a set of beliefs that have guided and driven our decisions as we navigated the centuries. The first of these is integrity, perhaps the foremost reason we have succeeded over so many years. Responsibility goes hand in hand with integrity. Being a good steward and doing the right thing will take you a long way. Finally, we have a passion for all that we do. You see it in the details of our handiwork and in our commitment to our customers.

These are the cornerstones that built Beretta; they represent my family's passion and drive what we do every day. In the context of that historic background, in this Annual I am pleased to present a new way for our customers to look at Beretta.

What does this mean?

After nearly 500 years, we have not abandoned our passion. We are more committed to it than ever. Rather, the new categories under which you will find Beretta's products are a truer reflection of who we are. Beginning with my family, Beretta employees live, love, and believe in what we do. For us, it's much more than just a brand: it's a lifestyle. Just like you, the Beretta family's outdoor pursuits are wide ranging: upland, big game, waterfowl, competition shooting, Western and more. Because of this, we are committed to bringing you all-inclusive collections of firearms, apparel, and accessories—designed to complement each other and suit your passion, whatever it might be.

Cav. Ugo Gussalli Beretta

President, Beretta USA Corp.

SURTE

INTRODUCING THE UPLAND SPORTSMAN

The beating of wings. The beating of your heart. The expectant and eager look in the eyes of your dog seemingly frozen in time. It is a scene you've both played out many times before. Yet it feels as fresh and exhilarating as the first time you swung your shotgun toward the skies. No matter the day's result, this moment is reward enough. Here, success is measured in the sheer joy of watching your dog work, in the beauty of cradling a finely crafted shotgun, and in finding the opportunities to test your mettle against nature.

These moments are what bring you back season after season. A respect for nature, harmony, and heritage are the hallmarks of the Beretta Upland Sportsman. Hallmarks that are reflected in Beretta's superb collection of fine shotguns perfectly suited for their purpose in the field, superior upland apparel designed to meet the challenges of nature, and accessories that perfectly complement your passion and pursuit.

THE UPLAND SPORTSMAN SILVER HAWK SERIES

The 12-gauge Optima-Choke tubes feature longer tapered construction, assuring greater pellet concentration and better distribution of shot.

The sideplates are attached without visible screws, for a classic understated look.

687 EELL DIAMOND PIGEON COMBO

687 EELL DIAMOND PIGEON COMBO J687300

In Italian, EL stands for extra lusso (extra luxury). The EELL designation takes that quality to an even higher level. This is an over-under with the feel and allure of a classic game gun for the discriminating sportsman who appreciates all the finer points of a well-made shotgun. The patented locking system creates a particularly slim receiver, making it one of the most elegant, finely balanced and responsive shotguns in the world. The extensive hand-chased engraving, combined with the highly figured oil-finished walnut, makes a classic statement of your good taste.

"WE HAVE MANY BERETTA SEMI-AUTOMATIC SHOTGUNS THAT HAVE WELL IN EXCESS OF 300,000 ROUNDS OF AMMO FIRED THROUGH THEM. IN FACT, WE HAVE AN ONYX O/U SHOTGUN (SHOWN ABOVE) THAT HAS MORE THAN A HALF MILLION DOCUMENTED ROUNDS OF AMMO FIRED THROUGH IT...AND IS STILL GOING STRONG. IN OUR BUSINESS WE DON'T HAVE TIME TO MESS WITH PRODUCTS THAT DON'T PERFORM."

— Zeke Hayes, Trek Safaris, www.treksafaris.com

THE UPLAND SPORTSMAN SILVER PIGEON FAMILY

SILVER PIGEON V J6871R8S

de o

The pinnacle of the Silver Pigeon line, this prestigious over-under is stocked in richly figured, oil-finished walnut and detailed with gold game bird inlays and a Beretta gold medallion underneath. The receiver is treated with Beretta's proprietary process that imparts a classic Color-case finish that ensures metallurgical integrity and a distortion-free part. A joy to own and shoot, thanks to Beretta's superior mechanical refinement and innovative technology, the Silver Pigeon V will last for generations.

SILVER PIGEON III J687IJ8 There's no need to sacrifice style for function with this attractively priced member of the Silver Pigeon family. The distinctive Silver Pigeon III has all the features of the S and II, but with more extensive engraving, including game scenes, on the frame. Available in a trim and racy 28 gauge made on its own properly scaled frame, this finely crafted shotgun with natural

pointability is up to any hunting challenge.

The recoil reducing Gel-Tek pad on the Onyx Pro series keeps your shoulder fresh through hundreds of rounds.

Beretta over-unders are known for their slim, lowprofile receivers that let the shotgun rest low in the hands for superb pointability.

THE UPLAND SPORTSMAN ULTRALIGHT SERIES

Why low profile? Beretta's box lock mechanism allows a lower profile receiver. This benefits the shooter's accuracy, providing improved hand-to-eye coordination for instinctive shooting.

THE UPLAND SPORTSMAN 3901 SERIES

"BETWEEN THE TWO OF US, FRANK AND I SHOT 10,725 ROUNDS OF AMMO THROUGH OUR NEW BERETTA 3901 AUTOLOADERS. WITH HIGH VOLUME SHOOTING LIKE THIS, THE LOW RECOIL AND FAST CYCLE TIME GAVE US GREAT SHOTS TIME AFTER TIME. OUR SHOTGUNS WORKED FANTASTICALLY ON OUR RECENT TRIP TO ARGENTINA."

— Pete Brownell, Vice President, Brownell's— World's largest supplier of firearms accessories and gunsmithing tools.™

Beretta autoloading shotguns are the preferred brand in high-volume Argentina shooting because of their superior reliability, durability, and most importantly—soft shooting qualities. In particular, the 3901 series is extremely easy to disassemble for quick and easy maintenance.

THE 3901 STORY

BERETTA USA CORP. MANUFACTURING FACILITY IN ACCOKEEK, MARYLAND

Although its reputation and reliability were forged in the battles of clay target competitions around the world, Beretta's new 3901 shotgun is a proud product of the U.S.A. Made in America at the very same factory that manufactures the legendary M9 for the United States Armed Forces, this new workhorse was designed to take afield into the game coverts and flyways of America.

Beyond the pride of its birthplace, the 3901 family of autoloading shot-guns (Target RL, Rifled Slug, Ambassador, Statesman, and Citizen) comes with an impressive heritage. The award-winning and competition-proven A390 shotgun was the launch pad for the 3901.

Rugged and reliable, but with all the refinements befitting its "Made in America" legacy, the new 3901 shotguns offer the softest shooting gas system around, a high strength steel alloy hammer-forged barrel, Mobilchoke versatility, and a removable trigger group locked in place by a single pin.

ENTIRE FAMILY OF FIREARMS MADE IN AMERICA.

PRIDE OF BIRTHPLACE

BERETTA USA CORP. HEADQUARTERS-ACCOKEEK, MARYLAND

INTRODUCING THE AMERICAN WATERFOWLER

Up before dawn on a cold and damp November morning. Coffee is brewing, your gear is carefully packed, and your retriever is waiting anxiously to do what he was born to do. As you head for the waiting shore, it seems a moment for which you, too, were born. Crouched in a blind with your dog quivering against your leg. The thunder of wings above. The hope of the day ahead. Then that one heart-stopping, defining moment: the shot, the splash, the retrieve.

These are the slices of time that stir the soul, that define the American Waterfowler's passion for the pursuit of the wild places. It is a passion backed by the confidence that your Beretta shotgun and gear are absolutely up to this specific challenge—no matter what the elements throw at you. That's a confidence, backed by 500 years of tradition and technological innovation, you can count on with every pull of the trigger or zip of the jacket.

THE AMERICAN WATERFOWLER XTREMA2

HARDWOODS HD CAMO

AUUA

MAX-4 HD CAMO

Whether you are hunting the marshes or the wide open fields, there's a finish to handle the situation. The synthetic stock in black, Max-4 HD Camo or Hardwoods HD Camo stands up to the elements.

Using accelerated salt spray testing, the unprotected steel barrel section (top) shows corrosive effects while the Aqua–technology protected barrel (bottom) looks brand new.

Fitted, lined polypropylene case keeps the many supplied accessories in place. Includes 5 choke tubes, choke tube wrench, sling swivels, Beretta oil and butt plate or recoil pad.

"SOFT SHOOTING, HEAVY DUTY, RELIABLE, AND AMAZINGLY EASY TO CLEAN.

THE XTREMA2 REPRESENTS QUITE POSSIBLY THE FINAL WORD IN 31/2-INCH

SEMI AUTOS."

—Phil Bourjaily, Field & Stream Magazine

WHEN WE DESIGNED A GUN FOR THE MOST EXTREME ENVIRONMENTS.

WE WERE SURE TO WIN SOME EXTREME AWARDS.

XTREMA2 | 391C28

In 2002, Beretta introduced the original Xtrema. This gun quickly garnered *Field & Stream's* "Best Gun of the Year Award," *Guns & Ammo's* "Editor's Awards for Gun of the Year," and *American Rifleman's* "Golden Bulleye Award." In the relentless pursuit of excellence, our engineers have once again set the benchmark for a "do-it-all" shotgun in the form of the new Xtrema2—*Shooting Illustrated's* "Shotgun of the Year."

This superb autoloading shotgun was designed and built to reliably function 2³/₄-inch, I-ounce equivalent loads through brutal 3¹/₂-inch magnum loads—interchangeably if you so desire. The Xtrema2 has more recoil reduction features than any other autoloading shotgun on the planet!

LOW STRESS

MEDIUM STRESS

HIGH STRESS

STRESS CONCENTRATION IMAGING

This shows the behavior of the Gel-Tek pad during the shooting cycle. Note the homogenous distribution of stress over the entire surface.

WHY BERETTA GAS OPERATED VS. INERTIA

Beretta's unique self-compensating semiautomatic gas operation system is considered the best in the world. The soft shooting gas system's recoil reduction, which automatically vents the excess gases of even the most powerful cartridges, simply can't be matched by inertia operated shotguns, which generally transfer the full recoil signature to the shooter. It is completely self-contained with no loose inertia springs or o-rings to lose while field-stripping.

RECOIL REDUCTION

Beretta's new Kick-Off hydraulic dampening reduction system reduces recoil an astounding 44% more than its closest rival by using two hydraulic recoil dampers incorporated into the stock "spacer" unit. The recoil energy is gradually dissipated by the hydraulic dampers, resulting in superior comfort for the shooter.

This wood enhancement finish affordably reproduces the rich grain pattern of Beretta's premium grade walnut. The wood core maintains the warmth and feel of wood, while the film adds climate-shielding protection to the wood.

The film is protected by a scratch-resistant semigloss lacquer, while the straight-grained wood core guarantees years of use in all shooting environments.

X-Tra Wood and a lustrous frame finish make the Onyx a striking example of the gunmaker's art. As with the White Onyx, the Onyx Pro offers Dura-Jewel enhancements.

Beretta's proven combination of tang safety and barrel selector put you fully in control.

THE AMERICAN WATERFOWLER

AL391 URIKA AND 3901 CITIZEN

AL391 URIKA SYNTHETIC OPTIMA J391371 For the waterfowler who enjoys his shotgun in basic black and prefers the durability and versatility of a synthetic stock, this sleek autoloading shotgun is the answer. The hammer-forged barrel is chrome lined for corrosion resistance and easy cleaning, while Beretta's self-compensating gas valve lets you shoot the full range of your favorite ammunition.

3901 CITIZEN J390C18

Made in America, the 3901 Citizen is a true no-nonsense synthetic stock shotgun that you'll feel comfortable throwing behind the seat of your pickup, but it is an old friend you can rely on when the shooting heats up—no matter what the weather conditions. Featuring the softest shooting gas system around, a high strength steel alloy hammer-forged barrel, and Mobilchoke versatility, the autoloading Citizen is a model of rugged reliability, uncomplicated adornment and American pride.

INTRODUCING THE BIG GAME HUNTER

You've waited a lifetime, or so it seems, for this very instant. You've tracked this desired prize, this trophy, not just for hours or days, but since the very first time you brought the smooth finish of the comb to rest against your cheek. Since the very first day, you took to the mountains or the plains to test yourself against the world's most sought-after game. With the prize finally in your sights, you squeeze and put your faith in the hands of your—and the gunmaker's—experience and expertise.

For the Big Game Hunter, the thrill of the hunt is paramount. Everything about it, from spectacular wilderness hunting fields to the perfect fit and feel of a superbly crafted rifle to the cut and durability of field-proven clothing, feels right. No one understands that better than Beretta. Our Big Game Hunter collection—apparel, accessories and our offering of superb Finnish Sako and Tikka rifles—has been tested time and again by professional guides and hunters to ensure your pursuit is undertaken with only the very best of everything at hand.

THE BIG GAME HUNTER SAKO 85 HUNTER

sako

Home to an impressive number of top Olympic shooters, Finland is also home to some of the world's finest rifles. For over eighty years, Sako Ltd. of Finland has impressed the world with its passion for quality and its commitment to offering shooters the best rifles that technology can offer—without compromise. Sakos are regarded the world over as truly custom rifles at production prices. The sole importer in the United States, Beretta is proud to call this brand a prominent part of its family.

SAKO'S FIRST NEW PRODUCT IN A DECADE

WORLD'S FINEST PRODUCTION RIFLE

SAKO 85 HUNTER JSIA43

The new Sako 85, a celebration of the riflemaker's 85th anniversary, is a superbly executed medley of tradition, technology and precision. Continuing Sako's time-honored tradition of crafting exceptional rifles for the hunter and target shooter, the Sako 85 incorporates the features most sought after by experienced riflemen: controlled-round feeding, an exceedingly fast lock time, a user adjustable trigger, 70-degree bolt handle lift with a silky smooth bolt travel, and broad flat bedding surfaces. The rifle's stock is crafted from select walnut and features the classic straight comb and shadow-line cheekpiece that premium-rifle owners appreciate. Individually factory tested and guaranteed to shoot five-shot groups of I MOA or less out of the box.

The Sako 85 Short Claw Extractor commands total control of the cartridge, engaging the extractor groove of the cartridge as the cartridge rises from the magazine, positively guiding the cartridge into the chamber of the rifle. When single-round feeding, most controlled-round feed rifles require the cartridge to first be placed into the magazine. Not so the

PRECISION AND SPEED EQUALS ACCURACY

The Sako 85 offers the shooter a crisp, single-stage trigger, user adjustable between 2.2 and 4.9 pounds, and an incredibly fast total lock time of under 1.3 milliseconds.

.338 FEDERAL – BIG GAME PERFORMANCE IN A NEW RIFLE CALIBER.

Federal Premium has chosen the Sako 85 as the benchmark rifle for the first-ever cartridge to bear the Federal name.

- A soft-recoiling .338 with magnum performance
- Flatter trajectory than a .308 Win
- More muzzle energy than a .30-06
- Fits in a light .308-length action
- Ideal for all-around North American big game

shooter's cheek as the comb line moves down under recoil.

ready to hunt. The FinSoft recoil-absorption system dramatically reduces felt recoil, especially in the

Every Sako barrel is cold-hammer-forged and finished in-house to ensure matchgrade accuracy. The muzzle crown is carefully cut by hand and final inspection is done using the most complex and highly refined optical fine tuning instrument known to man: the human eye,

SAKO 85 SYNTHETIC EXCLUSIVES

Synthetic-stocked rifles frequently weigh less than their wood counterparts and, therefore, recoil slightly more. The innovative FinSoft recoil pad system absorbs and dissipates recoil forces away from the cheek, in more than one direction. Left-handed shooters can convert the stock with an accessory cheekpiece (not included).

SAKO REQUIRES THAT EVERY RIFLE MUST FIRE A 1-INCH, 5-SHOT GROUP FROM 100 YARDS, PRIOR TO LEAVING THE FACTORY.

THE BIG GAME HUNTER SAKO 85 GREY WOLF

MAGAZINE	DETACHABLE, 5-ROUND CAPACITY, 4 W/WSM
WEIGHT	S ACTION 725 LBS SM AND M ACTION 75 LBS

The bedding of the receiver is critical to the accuracy of any rifle. The flat bottom and side profiles of the Sako 85 receiver in conjunction with the innovative recoil lug, integral to the stock, allow stockmakers to mate the receiver to the stock with a degree of precision which is far more difficult to achieve with round profiled receivers and conventional recoil lugs. These flat surfaces also reduce the torque twist of the receiver against the stock bedding surfaces that occurs when a rifle is fired, prolonging the accuracy of the bedding.

The lengthened rear bolt guide makes an already smooth action even smoother. Typically, the shorter the action the more susceptible it is to bolt bind due to decreased bearing surface area. The lengthened rear bolt guide surface of the Sako 85 ensures the smoothest possible bind-free bolt travel, even in the very popular WSM chamberings.

THE BIG GAME HUNTER SAKO QUAD SERIES

One rifle now allows you to own any or all of the four most popular rimfire cartridges available. Truly unique in the world of rimfire rifles, the Sako Quad lets you select any of the four interchangeable cold-hammer-forged rifled barrels and change them in seconds. The barrels may be removed and replaced without change in the point of impact. The Sako Quad features a supersmooth bolt throw with a short 50-degree bolt handle lift, detachable magazine, and user adjustable trigger system. Complete rifles and optional spare barrels chambered for .22 LR, .17 HMR, .22 WMR or .17 Mach2 are available.

SAKO QUAD COMBO JRSR2CI

17 Mach2, .17 HMR, .22 LR, .22 WMR. Each of these four great rimfire cartridges works best for specific shooting needs. Now, there is no need to ponder over whether you have chosen the best small-bore rimfire caliber. The Sako Quad Combo is one rifle, four barrels, and two unique dual-caliber color-coded magazines. Available in either Hunter Combo or Synthetic Combo.

Each barrel and magazine is color coded for easy recognition. Just match the barrel band color with the correct dot color on the magazine. As an added feature, the magazines provide a unique safety system to prevent insertion with the wrong barrel in place.

THE BIG GAME HUNTER TIKKA T3 SERIES

Redefining what a hunter can expect from a rifle in its modest price range, the Tikka T3 is taking the American market by storm. The principle around its design is bold: with today's available technology, there is no excuse not to incorporate the most desirable features in a rifle. So the engineers at Sako in Finland and the designers at Giugiaro in Italy went to work. The result is truly the finest production rifle available to the American shooter, a rifle that incorporates an action, an adjustable trigger, distinctive styling at a truly unbeatable price tag. But most importantly, each one of these rifles only leave Finland after grouping three shots under 1 inch at 100 yards, making them an industry benchmark for out-of-the-box accuracy. Beretta is proud to be the sole importer of Tikka rifles in the United States.

Tikka barrels are precision cold-hammer-forged and free floated from the stock. The muzzle is hand crowned for a perfect finish, allowing for the highest degree of shooting accuracy.

THE BIG GAME HUNTER RIFLED SLUG GUN

In many areas of the world, the Rifled Slug Gun is the firearm of choice for non-dangerous big game hunting and there is no finer choice than the Beretta series of Slug Guns. Both Beretta Slug Guns feature 24-inch barrels with a rifling profile and a 1:28 rate of twist optimized for superior accuracy with sabot-style slugs. These barrels feature chrome-lined chambers and bores for ease of cleaning and rust resistance. The integral cantilever Picatinny scope-mount rail ensures constant ridged alignment of the scope to the barrel for maximum accuracy and accepts common Weaver-style scope rings, such as Sako Optilock and Burris systems.

KALAHARI SAFARI JACKET

GU28257170 • M-XL/XXL • MSRP: \$140/\$150

An extraordinarily functional safari jacket with loops for 12-gauge or 375 H&H shells, working epaulets, freedom of movement pivot sleeves, gusseted underarms, and a button-off adjustable belt.

TESTED TIME AND AGAIN BY PROFESSIONAL GUIDES AND HUNTERS, BERETTA'S BIG GAME HUNTER COLLECTION LETS YOU TAKE TO THE FIELD IN FULL CONFIDENCE YOU'RE EQUIPPED WITH THE VERY BEST.

HUNTING PACK WITH STOOL

JA235B • MSRP: \$98

This stool carries the load on your back or on the ground. Features padded non-slip shoulder straps and a tubular steel frame to support any load.

Here's the perfect complement to your Kalahari Safari Jacket. Made of the same prewashed cotton twill with stain-resistant Teflon finish, this pant features support strapping to keep their shape when you fill the pockets. Articulated knees keep you comfortable through the longest treks. Nylon abrasion-resistant front pocket liner, quick load shell pockets, and snake boot tabs are a testament to the hunter's needs.

THE BIG GAME HUNTER APPAREL AND ACCESSORIES

THE BIG GAME HUNTER APPAREL AND ACCESSORIES

THE COLLECTION KING RANCH

The Main House at King Ranch Santa Gertrudis Division headquarters.

The Old West lives today. King Ranch, the birthplace of America's ranching industry—a trade that sparked a new way of life and contributed to the timeless romance of the cowboy—is a coveted destination for hunting and other outdoor-style adventures. The ranch's great expanse of 825,000 acres is an unspoiled habitat for a vast amount of native game as well as exotics.

Founded by Richard King in 1853, the historic Texas ranch's many accomplishments include the breeding of the Santa Gertrudis, the first American breed of cattle, as well as the first registered American Quarter Horse.

Inspired by this legendary ranch, Beretta has created a series of limited-edition guns featuring hand-chased engraving in extraordinary detail by Beretta's Master Engravers. Look for the "Running W" checkering pattern on stocks and fore-ends, rope-bordered logo engravings, and hinge pin engraving inspired by the King Ranch living room ceiling decorations.

INTRODUCING THE VICTORY SHOOTER

The scorecard, the moist palms, and the lineup of like-minded competitors might indicate otherwise. But as the clays fly across your line of vision, you stand alone, competing against no one but yourself. Every inch of your being is focused, balanced, alert, working in unison. There's no denying you are here to win, to stand proudly on the podium. But more than anything else you are here to perform unfalteringly. To prove you've shot your very best.

To compete successfully, the Victory Shooter requires dependable performance. Not just from themselves, but from their shotgun and the specialized apparel and accessories that work together to give them a competitive advantage. Designed for maximum performance in any event, Beretta's competition guns and clothing are the epitome of the craft, a testament to optimum control and reliability—as gold medal winners worldwide will attest.

THE VICTORY SHOOTER 3901 TARGET RL

The 3901 Target RL's adjustable comb helps give you the competitive edge by allowing you to regulate your personal sight picture. The stock is also adjustable for cast on/off and comes equipped with Beretta's patented Memory System II feature that lets you remove and replace the comb without losing your individual settings.

"BERETTA REALLY DID ITS HOMEWORK FOR THE NEW 3901 TARGET RL. AS A RESULT, THIS SHOTGUN ADDRESSES ONE OF THE BIGGEST PROBLEMS THAT WE SEE IN WORKING WITH YOUTH SHOOTERS: THE ADJUSTMENTS REQUIRED DUE TO GROWTH SPURTS. THE FACT THAT THE 3901 TARGET RL WILL GROW WITH THE SHOOTER AND IS AFFORDABLE, MAKES IT VERY ATTRACTIVE."

- Lance Rider, Coach of the McKenzie Girls Team in Tennessee

DESIGNED TO GROW WITH THE YOUNG SHOOTER

A FIRST AND LASTING SHOTGUN

3901 TARGET RL | 390Y18

Beretta is strongly committed to instilling a lifelong passion for the sport of shooting in young shooters. That's why the 3901 Target RL was designed from the ground up as the ideal first shotgun for youth. Developed in cooperation with the NRA Youth Program, Scholastic Clay Target Program, Boy Scouts of America and other organizations, this is a shotgun that grows with the young shooter. The semiautomatic allows the beginner to shoot a 12 gauge with the benefit of a gas operating system that reduces the felt recoil. It also features an adjustable length of pull from 12 to 13 inches and a specially designed shorter stock that's adjustable for cast on/off. The stock comes equipped with Beretta's Memory System II to adjust the parallel comb. Because of these attributes, the 3901 Target RL also makes the perfect shotgun for new shooters and smaller stature sportsmen and women.

Another feature that makes this semiautomatic ideal for young shooters—and those who teach them—is that you can limit its capacity to just one shell. Through the use of the supplied magazine plugs (in yellow), the capacity of the 3901 Target RL can be configured to a single shot. This 12-gauge, 3-inch, chambered shotgun also comes in both 26-inch and 28-inch barrel lengths. The barrel comes equipped with a Sporting-style flat rib with white front bead and mid-bead. The standard walnut stock and forearm are finished in a satin matte finish.

THE BERETTA TEAM

Can you imagine winning the World Shotgun Championship at 16 years old? The U.S.A.'s Vincent Hancock did just that this past year in Lonato, Italy, with an out-of-the-box Beretta DT10. He became the youngest shooter ever to win the world championship.

Hancock joins a prestigious list of some of the most respected and talented names in the sport of competitive shooting who embody the winning spirit of Beretta. From the Olympics to regional shoot-offs, a Beretta is usually in the hands of the champion. Beretta's gallery of champions from around the world are a testament to their skill, determination and performance under pressure. Like Beretta's competition guns, they represent the epitome of their craft.

VINCENT HANCOCK DT10 TRIDENT (OUT OF THE BOX UNMODIFIED)

In the world of international skeet shooting, Vincent Hancock of Eatonton, Georgia, has been simply dominant. At just 16 years old, he won a gold medal win at his World Championship debut, becoming the youngest shooter to be crowned world champion. He has set every men's skeet world record while accomplishing what no one else has ever done: win seven medals in seven major International Shooting Sports Federation competitions.

TRAVIS MEARS 390 GOLD & BERETTA DT10

This 18-year-old from Burleson, Texas, is a five-time National Sporting Clays Association (NSCA) All American and was the youngest Gold Medalist ever at the ESPN Great Outdoor Games. Mears was also the 2003 NSCA 5 Stand Junior RU National Champion, three-time Texas State 4-H High Overall Champion and two-time Junior Olympics Silver Medalist in Doubles Trap.

HALEY DUNN DT10 TRIDENT

At 21 years old, Dunn burst onto the international skeet shooting scene by setting a World Record and Junior World Record at the 2005 World Cup in Korea. Dunn followed that up with gold at the Championships of the Americas and the World Cup Finals in Dubai. She had the top finish for the United States in women's skeet at the 2005 World Clay Target Championships and won the 2005 ACUI Clay Target Championship in women's international skeet and five stand.

THE BERETTA TEAM

ANDREA BENELLI DT10 TRIDENT

Olympic champion Andrea Benelli of Italy won gold in men's skeet at Athens in 2004 after taking the bronze in Atlanta in 1996. Overall, he has captured eight gold, four silver and three bronze in the World Championship. Benelli's amazing gold medal career also includes 16 gold at the Trial World Cup, nine gold at the Italian Championship and eight at the European Championship.

SCOTT ROBERTSON AL391 TEKNYS GOLD SPORTING

For three-time World Champion and eight-time National Champion, Scott Robertson stepping to the awards stand has almost become as much a part of his life as shooting. A gold medalist at the 2003 ESPN Great Outdoor Games and 13-time All American, Robertson of Flower Mound, Texas, has Pan-American, Caribbean Cup and Ducks Unlimited National championships among his many accomplishments.

AHMED AL-MAKTOUM 682 GOLD E

A member of Dubai's ruling family and a former national squash champion, Ahmed Al-Maktoum entered the Olympic record books as the first-ever medalist from the United Arab Emirates when he blasted to gold in men's double trap shooting at Athens in 2004. Al-Maktoum, who did not take up shooting until the age of 34, has also taken gold at four World Cups, a World Championship and an Asian Championship.

WHETHER YOU'RE A BEGINNER OR AN EXPERT ON THE RANGE, YOU CAN FIND COMFORT AND SECURITY KNOWING THAT BERETTA HAS JUST THE RIGHT CLOTHING AND ACCESSORIES TO EQUIP YOU.

BERETTA

INTRODUCING THE PISTOL SHOOTER

Whether testing your skills in competition, polishing them at the target range, or defending your home and family, there are certain things you demand from your firearm. Tops among these demands are absolute reliability, consistent accuracy, and optimal safety. But beyond these essential traits, your pistol is an extension of your personality. Your preference may run to the fastest or lightest or most technologically advanced. Or to the familiar standbys that still feel perfect in the palm and right on the money at the range.

As a Beretta Pistol Shooter, you can also expect innovation, versatility, and superior design and workmanship. Because in the handgun stakes, Beretta wins—hands down. The automatic choice of marksmen, sportsmen, and military worldwide, Beretta pistols carry with them their own cachet and reputation. And deservedly so. A Beretta pistol is both a triumph of design and reliable performance, offering the user the most advantageous combination of form and function.

THE PISTOL SHOOTER 90 TWO

The 90 TWO comes with a large array of safety features, including an ambidextrous double safety on the slide with a hammer decocking function and automatic firing pin block safety.

THE NEXT GENERATION HAS ARRIVED.

SPECIAL HANDGUNS FOR SPECIAL TASKS

The new removable single-piece, ergonomic and modular grip unit allows for quick and easy grip replacement. The rear upper part is precisely curved and relieved for a firmer, more comfortable grip and to snugly fit the shooter's hand.

Located forward and under the barrel for light and laser accessories, the accessory rail is machined integral to the receiver.

An accessory rail cover protects the rail and permits the pistol's smooth insertion into the holster.

"I WAS ON A RECOVERY MISSION LAST YEAR IN THE SADR CITY DISTRICT OF BAGHDAD TRYING TO RECOVER AN M1A1 TANK THAT WAS HIT BY INSURGENTS. IN THE PROCESS OF CONDUCTING THE MISSION, MY TANK COMMANDER WAS INJURED, LEAVING ME IN COMMAND OF MY TANK. WITH NO SUPPORT ON MY FLANKS, I WAS PRETTY EXPOSED. A GROUP OF IRAQIS BEGAN TO CONVERGE ON MY TANK, GESTURING FOR AN RPG TEAM. WITH NO ROOM TO TRAVERSE MY TURRET, I STOOD UP IN MY HATCH AND SUPPRESSED THE GROUP BY DISPERSING THEM WITH MY M-9. IF THEY HAD GOTTEN THAT SHOT OFF AT MY FLANK, I MAY NOT BE HERE TODAY. THANKS, BERETTA, FOR A GREAT PRODUCT AND SUPPORTING MY PLATOON."

— Staff Sergeant, Michael Blake, U.S. Army

The M9 has successfully served America's armed forces on far-flung battlefronts throughout the world—from the chaos of Mogadishu to the deserts of Iraq and the fire-swept streets of Baghdad. Countless soldiers, sailors, airmen and marines have stood guard to preserve the nation's freedom, protected by its accuracy and firepower. Beretta is honored to manufacture the M9, the standard sidearm for the U.S. Armed Forces, and its civilian counterpart, the 92FS—the most reliable and safest semiautomatic pistols ever made.

CX4 STORM JX49210M

Accurate, easy to use, field strip and accessorize, the Cx4 Storm fits every need of the American pistol shooter. Today's shooter demands a gun that can accept a large assortment of accessories, and the Cx4 caters to all tastes. A retractable accessory rail extends from the fore-end for mounting tactical lights. Rails can be installed on either side or the bottom of the fore-end for lasers or forward grips. Redefining the pistol-caliber carbine, with racy and radical lines from the masters of industrial design at Giugiaro. The Cx4 Storm's smooth, sweeping curves are made possible by the use of modern high-strength, lightweight technopolymers.

INTRODUCING THE WESTERN SHOOTER

The heritage of the Old West runs deep in the heart of the Western Shooter. The spin of the cylinder, the glint of the nickel barrel, the sheer thrill of breaking open a six-shooter or the adrenaline rush of firing a fast-handling, pump-action longarm. There's nothing that quite compares to that exhilarating moment when you feel the cowboy mystique running through your veins. To that moment when you test yourself, using those classic firearms that defined a fabled era, against the legends of the American frontier.

To the Western Shooter, authenticity is what matters above everything else. However, at Beretta authenticity does not detract from flawless performance. This is why you'll find an extraordinary combination of both in Beretta's lineup of Old West firearms. These fine firearms are for the Western Shooter who demands absolute truthfulness to the 19th-century originals as far as dimensions, feel and functioning, coupled with Beretta-style reliability, safety and performance.

INTRODUCING THE 1526 COLLECTION

The sheer beauty is in every luxurious detail. From the rich baroque spirals hand chiseled by Master Engravers to the extraordinary cut of cloth and harmonious stitching found in the world's finest Italian apparel. Here there are no compromises; here only the very best will do. Every shotgun is created of hand-selected wood, hand engraved and hand fitted. Every article of clothing is fashioned from only the finest fabric in impeccable Italian design.

The 1526 Client is the collection that defines Beretta. That represents living at its very best. Not only is this the collection that the Beretta family is most hands-on involved with, this is the lifestyle the Berettas themselves live. This is their legacy; this is their passion. There is, quite simply, no finer example of Beretta's heritage of unflagging dedication to extraordinary performance and outstanding quality than in this collection, which is enveloped in the Italian sense of craftsmanship and style unrivaled worldwide.

Not all things are made equal in this world. For those who appreciate the finer things in life, who see the beauty and value in the craftsman's attention to the smallest, hidden details...genuine leather buttons and trim...handpicked English wool and luxurious soft cashmere...field-tested fashions that honor the long tradition of the hunt...to you, only the very finest will do.

For the same reasons you cherish the master artisan's touch on a hand-chiseled shotgun, you treasure the handiwork that goes into the authentic, sophisticated clothing that immeasurably increases the pleasures of your pursuits.

This is time-tested hunting apparel that meets those unrelenting standards. The 1526 Collection is an extension of Beretta's passion and commitment to authenticity, timeless appeal, tradition and legendary quality. Welcome to the best of the best, to a world of luxury and quality without equal.

TAKE ON THE WORLD IN TIMELESS STYLE

This is clothing designed for the discriminating man, interested more in good taste, tradition and superior quality than the latest fashion trends. You are confident in your own style and recognize clothing that speaks to your lifestyle and expectations.

The 1526 Collection is the heart and soul of the Beretta family, part and parcel of their proud tradition over the centuries. They care deeply about the cut of the cloth, the unwavering sense of style and the unfailing performance precisely because this is the clothing that defines their lifestyle.

Their signature imprint is all over each of these luxurious articles, not in the form of a telltale logo, but in the masterful details that separate this collection from the rest of the world.

A COLLECTION OF THE WORLD'S FINEST

As you travel the continents in search of the finest the world has to offer, you have come to understand that there is no substitute for those special qualities that embody what is truly extra lusso. Such quality, once found, is impossible to retreat from.

To take to the field with a custom shotgun created by master artisans and not dress for the occasion is unimaginable. The 1526 Collection represents the epitome of clothing for the hunt and for the sportsman who relishes life lived to its highest level.

Every article has been fastidiously designed, thoroughly tested and found to be worthy of the Beretta family's personal stamp of approval. This is the world's finest—without compromise.

Taking advantage of the latest technologies, this handsome wool blend jacket features a removable Thermore vest.

THE 1526 COLLECTION SO10 EELL

Seventy years after the first modern Beretta over-and-under (the S1 launched in 1933), a new true sidelock shotgun is born: the SO10 EELL over-and-under. It is the deserving successor of the famous Beretta SO series hunting and competition shotguns that have earned their reputation, on the Olympic podium and on the most exclusive hunts in the world, from Europe to America to Africa, for being the most functional, elegant and exclusive over-and-unders in the world. Drawing from this very long experience, and under the dedicated guidance of the Beretta family, the most gifted designers and gunsmiths of the company have created the new SO10 EELL, a synthesis of aesthetic refinement, function and performance that place it at the peak of the world's prestigious over-and-under offerings.

MASTER ENGRAVER, MARIO TERZI

ELEGANCE AND CARE

Entirely hand executed by expert craftsmen, the Beretta SO10 EELL over-and-under case is made of solid wood covered in resistant leather. A full range of handmade cleaning and maintenance accessories is provided. Type and color of leather, wood, finishing and accessories vary depending on the model.

THE 1526 COLLECTION IMPERIALE MONTECARLO

THE 1526 COLLECTION SO6 EELL, SO5 & DT10 EELL

after generation.

SO6 EELL Embellished with the finest hand engraving proudly signed by the author, the SO6 EELL Premium Grade sidelock shotgun is sought after by connoisseurs who desire to be one of the few to own such a masterpiece. Pick one up and you know it is special—each of its elegant details, from the sophisticated engravings to the gold-inlaid animals to the dimensions of the walnut briar stock and receiver, is executed to suit the personal tastes and requirements of its owner. The Master Gunsmiths' handiwork is evident everywhere, from the hand-cut deep diamond checkering to the hand-file cut ventilated rib. Prized for their beauty and uniqueness,

each SO6 EELL is built to perform to the highest standards decade after decade, generation

SO5
With numerous gold medals in the Olympics and other prestigious international competitions, the best shooters in the world consider the SO5 over-and-under the finest competition shotgun ever made. The SO5 is handcrafted to meet the requirements of every shooting discipline and can be further personalized for peak performance. This elegant champion's sleek profile enhances swing and pointability. Its sideplates are beautifully hand engraved and the trigger plate is embellished with a 24-carat fine gold inlay of the "P. Beretta" signature on the coin silver finish.

DT10 EELL Competitors feel a special admiration for the shotgun that accompanies them to the podium. Since the beginning of international competition, Beretta has accompanied more medalists than any other brand of shotgun. The DT10 Trident EELL over-and-under was developed for discerning shooters, rolling performance and elegance into a truly durable, secure investment. The perfectly coupled components and the elegant, fully engraved, hand-finished receiver put this shotgun into the exclusive category of a Beretta Premium Grade.

THE 1526 COLLECTION GIUBILEO SERIES

The splendid Giubileo over-and-under Beretta, made in 12, 20, 28 and .410-gauge models, is distinguished by rich, baroque spiral and floral engravings on the receiver and sideplates, and by its exquisitely proportioned construction. There are no screws on the plates, allowing the Master Engravers to express their artistry in full, while the internal surfaces and mechanisms are impeccably polished. The elongated trigger guard, the safety and top lever are also completely engraved. The stock and fore-end, made from the highest quality walnut, are finely checkered. The antique shield—displaying P.B. in 24-carat gold—is encased within the fore-end. A sturdy ABS leather carrying case with accessories is also provided.

GIUBILEO II

Almost five centuries of tradition have produced the elegant lines, rich engravings, innovative technology and superior durability of the side-by-side Giubileo II, masterfully crafted in 12 and 20 gauge. The receiver features side panels that cleverly hide hinges and hinge pins and are applied without screws, providing Master Engravers more surface area to create beautiful spiral and floral designs. The top moldings of the receiver, coined in relief, make this wonderful side-by-side even more slender and elegant. The extended trigger guard, wisely encased within the grip, and the oriented screws immediately show Beretta's care and attention to the finer details of this excellent shotgun.

THE 1526 COLLECTION 455 EXPRESS & SSO6 EXPRESS

HOW TO PURCHASE A BERETTA PREMIUM SHOTGUN

Beretta's premium grade shotguns are masterpieces of the gunmaker's art. They are built entirely by hand by master craftsmen using time-honored techniques that have been jealously handed down through the centuries, which is why Beretta is extremely discriminating about where its premium shotguns are sold.

Premium dealers are chosen from among the very best Beretta dealers. These are the specialists to whom Beretta entrusts your custom-made shotgun experience with complete confidence. These dealers are not just well versed in the art of gunmaking, they have the love of shotguns and shooting sports running through their veins. In their hands, you can be sure to find true Beretta premium firearms, backed by Beretta's legendary passion for quality.

In the United States, Beretta premium firearms are sold only through these premium dealers:
